A Service for Family and Friends

Family members and friends of inmates are given the option of setting up prepaid calling accounts using credit cards, checks, money orders or Western Union. Calls that may otherwise be blocked are now completed through GTL's AdvancePay program.

How Does It Work?

AdvancePay allows inmates to call your telephone number without the restrictions of standard billing. When an inmate attempts to dial a blocked number, the inmate is placed on hold and AdvancePay will provide the option to the called party to set up a prepaid account. After the prepaid account is established, collect calls to the telephone number may be placed up to the prepaid amount in the account. After the amount of money is used, the system will prompt the user to add funds to their AdvancePay account.

Benefits:

Customers can rest assured that collect call charges will not reach an excessive amount.

When funds on a prepaid account are low, an automated system will contact customers with the option to add more money to their AdvancePay account.

All transactions occur in real time. When an inmate places a call to a number set up as prepaid, funds are deducted from the AdvancePay account as soon as the call is complete.

how to avoid disconnection!

Helpful tips to avoid calls from inmates from being disconnected:

- 1 DON'T attempt a 3-way call
- 2 DON'T try to transfer the call
- 3 DON'T put the inmate on hold
- 4 DON'T use or answer "call waiting"
- 5 DON'T press numbers on the touch tone pad during the call (inmate phone or called phone)
- 6 DON'T stop the conversation for any length of time, even short pauses may result in disconnect

Once a number has been blocked, only the person the number is listed to may unblock the number by calling:
